ALBANY-DECATUR DAILY

DEVOTED TO THE INTERESTS AND UPBUILDING OF ALBANY-DECATUR, ALABAMA

VOLUME XI

ALBANY, ALABAMA, FRIDAY, FEBRUARY 8, 1924

NUMBER 294

(Associated Press)
Washington, Feb. 8—Alabama: Generally fair tonight and Saturday. Light frost to the coast tonight, if weather clears—slowly rising temperature throughout Saturday.

MINORITY TO CENTER FIGHT ON FORD'S OFFER

YOUTH NEAR TOP IN RAISING OF CATTLE

Dairy Industry Centers More and More in Southland

AUBURN DAIRY EXPERT IS HERE

William Hardie States Rapid Progress Is Made in State

The cattle raising industry, is centering more and more in the Southern states and in Alabama, especially, states William Hardie of Auburn state dairy expert, in an interview here today.

Mr. Hardie is just from Madison county where he has been active in establishing dairy interests. He will be in Morgan County now for a few days on the same mission he performed in Madison County. Mr. Hardie, then informed of the new progress being made in Lawrence County in dairying, was greatly pleased, as he was one of the experiment station experts who encouraged the farmers of that county to have more cows and to milk more cows.

"There is no such thing as overlocking the cream and butter market," said Mr. Hardie. "I know of one creamery that would be glad to contract now for 350 pounds of cream daily."

Mr. Hardy stated he understood the Decatur Creamery was in the market for as much as a 1,000 pounds additional cream per day, and J. W. Clifton, the manager confirmed Mr. Hardie's statement.

The dairy expert said that farmers would make much more money to sell their cream than to undertake to churn it into butter on the farm.

In speaking of cattle raising, Mr. Hardie said from South America, from Cuba and from the cold northern states orders were being given in Alabama for herds of milk cows in recent years, and added that cows and calves could be raised and put in the market more cheaply in Alabama than in perhaps any other state in the United States.

Mr. Hardie said he was seeking all the while to get the farmers to milk cows. He said with three or four good cows, a family could have some ready money all the year, an added that he had noticed the farmers who had cows were painting their buildings, clothing and feeding their children well, and looking after their education. He said he was a firm believer in the slogan "the cow, the sow and the hen, and a little cotton now and then," the farm expert adding "and it is a little cotton after the boll weevil gets through with a field."

Five Defendants Are Electrocututed

(Associated Press)
HUNTSVILLE, Texas, Feb. 8—Electrocution became the legal method of execution in Texas early this morning when five negroes were put to death in the electric chair at the state penitentiary here.

Both L. K. Irwin, representative of Dallas County, and author of the bill substituting electrocution for hanging and Commissioner Sayles expressed satisfaction over the success of the execution. Representative Irwin said a bill would be introduced in the next legislature to abolish capital punishment in Texas.

Bryan Endorses L. B. Musgrove

(Associated Press)
BIRMINGHAM, Ala., Feb. 8—Before leaving Birmingham last night, William Jennings Bryan issued a statement endorsing L. B. Musgrove, candidate for president in the Alabama presidential primary in opposition to Senator Underwood. He also attacked the special primary law in Alabama, passed by the legislature which would give Senator Underwood authority to name the Alabama delegation provided he is endorsed by the Alabama voters.

HEALTH CRUSADER ASSUMES DUTIES

New Sanitary Engineer Arrives Here to Take up Work

HEADQUARTERS TO STAY IN MORGAN

Rector Declares Fight Against Malaria Will Be Won

L. H. Rector, the new sanitary engineer for the Tennessee Valley, named by Dr. W. S. Welch, chairman of the Alabama board of health, to succeed Col. William D. Wrightson, who has been transferred to Baltimore, Maryland, assumed his duties on Friday. Mr. Rector will have his headquarters here with the Tennessee Valley Laboratory and the Morgan County health unit. He will have charge of the anti-malaria fight in the following counties: Morgan, Limestone, Madison, Lauderdale, Colbert, Franklin, Winston, Marion, Cullman, Lawrence, Marshall, De Kalb and Jackson. Before coming here Mr. Rector was in the Mobile district with headquarters at Burden. Before coming into the work in Alabama under the direction of the state board of health Mr. Rector was a sanitary engineer for the Rockefeller Foundation.

Mr. Rector stated this morning that he would first visit the following counties: Morgan, Lauderdale, Limestone, Madison, Colbert and Franklin as those six have established health units. Mr. Rector stated that the fight against malaria was a hard, bitter one, but that he believed with Dr. Welch, that just as yellow fever had been banished, malaria will be destroyed. He stated that Dr. Welch believed the disease will be conquered in a much shorter time than most people believe.

"My method is to first make a survey and find out what is needed. It will be necessary for physicians and the people generally to cooperate with me in finding the malaria infested districts. One cannot well hunt alone."

"As my territory is quite large, I will have a few more counts than when I was in the Mobile district, it is my idea to depend on the clubs, civic organizations and physicians for the present for information as to where to attack."

"When I have been asked to make an anti-malaria survey, it will then be my duty to make it, and then estimate what it will cost to do the drainage work, if it is seen that certain territory needs draining."

"The officials of the counties of the towns and cities, will then have to defray some of the expense of having the labor work done."

TAX OFFICIAL TOURS NORTHERN ALABAMA

B. T. Roberts, of Montgomery, a member of the Alabama Tax Commission, stated while here today on his way to Tusculumbia, that he was making a tour of North Alabama, in accordance with the requirements of the law, for the purpose of looking into taxing conditions and to visit the tax adjusters, as named by the state tax commission.

Mr. Roberts said he found the taxes were being paid well this year, as compared to some other years and that the tax offices were moving along well with their work.

Before returning to Montgomery Mr. Roberts will visit Florence, Tusculumbia, Sheffield, and Huntsville. The other members of the state tax commission in addition to Mr. Roberts are: L. L. Herzberg of Gadsden, chairman, Brooks Smith of Montgomery, T. F. Pitts of Union Springs and F. C. Marcus of Birmingham.

ROOF DAMAGED

The roof of the apartment house on Sherman street occupied by F. E. Taylor and H. S. Roberts caught fire at 10 o'clock this morning, and considerable alarm was felt for a time, but the quick response of the fire department prevented all but a slight damage to the building.

ACTRESS' BODY BOUND TO BED

WILL HEAR MCADOO MONDAY MORNING

Former Secretary Will Have Opportunity to State Case

PROTEST MADE BY GEOLOGIST

Lewis Declares He Was Free of Prejudice in Oil Probe

(Associated Press)

WASHINGTON, Feb. 8—After a disagreement over its members over the trend taken by the oil inquiry, the senate oil committee decided today to defer until Monday its examination of William G. McAdoo.

WASHINGTON, Feb. 8—William G. McAdoo will be heard by the senate oil investigating committee tomorrow morning.

Appearing at his own request he will explain fully his professional services with the Donkey Oil company.

Decision to hear the former secretary of the treasury in the Wilson administration was reached today by the committee, after Chairman Lenroot had read into the record a letter sent him last night by Mr. McAdoo, asking for an immediate hearing. The chairman also read the letter of E. L. Donhey as to the total fees paid Mr. McAdoo and Attorney General Dougherty's telegram of February 1, stating the department of justice was never called upon to pass on the oil leases. All these communications previously had been published.

James O. Lewis, one of the geologists employed by the committee in investigating conditions at teapot dome, protested in a memorandum read to the committee against suggestions, which he said had been made by Senator Walsh, democrat of Montana. He insisted when he accepted employment by the committee his mind was open in regard to matters under investigation, and that he was free of prejudice which would have disqualified him from undertaking the work.

DETROIT, Feb. 8—The senate committee investigating the teapot dome oil leases "might do well to look into the possibility of action between oil interests and our attitude toward the Mexican difficulty," Henry Ford said today in a statement.

Mr. Ford's statement, issued in answer to a request that he join hundreds of other Michigan citizens in urging a fair deal for Edwin Denby, secretary of the navy, and a citizen of Detroit, said:

"I have been asked to join other citizens of Michigan in securing a fair deal for Edwin Denby, secretary of the navy. It is alleged here that because he has less political influence than other members of the government, a pretext may be sought to make him a scapegoat. My reply has been that I am sure we can repose full confidence in President Coolidge's sense of justice, which will not permit him to condemn any man without just cause, or injure any man's reputation without good reasons."

"The senate, also, without doubt, will accord every man a full hearing and opportunity for self defense. None in Michigan who knows Mr. Denby has believed him capable of personal dishonesty in personal or private affairs."

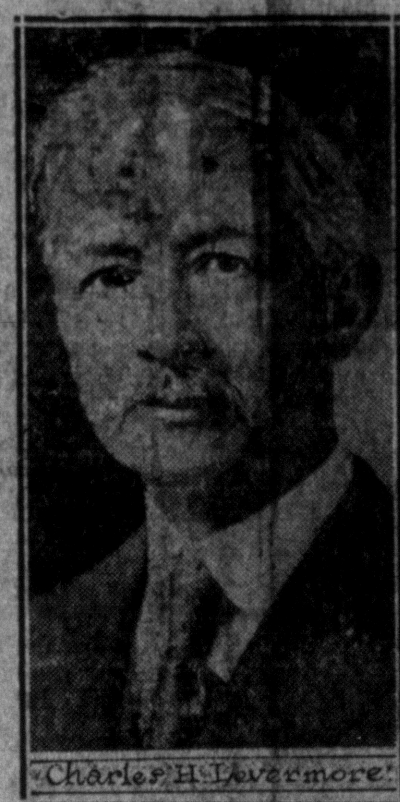

Prince of Wales Suffers Injury

(Associated Press)

LONDON, Feb. 8—The Prince of Wales broke his collar bone while exercising one of his hunters at Billington manor this morning.

The Prince was putting his mount over a fence, when the horse fell, shoulder.

\$100,000 Peace Award Goes to Levermore.

Charles Herbert Levermore, of New York City, secretary of the World Court League and secretary of the League of Nations' Union, has been revealed as the winner of the \$100,000 offered by Edward W. Bok, of Philadelphia, for the best plan for America to assist in maintaining world peace. He has received \$50,000 and will receive the other \$50,000 when a national referendum approves his plan. The World Court League was founded with the millions left by Edward Cline, of Boston, multi-millionaire publisher, to be devoted to world peace.

WILSON EULOGIZED AT KIWANIS CLUB

A large part of the time consumed by the regular weekly meeting of the Morgan Kiwanis club, held at the Lyons hotel ball room, was devoted to eulogy on Woodrow Wilson, delivered by E. W. Godbey. The subject of the address, which is described as an able and appreciative one, was: "Woodrow Wilson, the Man."

The meeting was called to order by W. W. Fussell, the president of the club, who called on Dr. James D. Wallace, for the invocation. Following the dinner, the following guests were introduced by their hosts: J. R. Daniell introduced Horace Dryden; John C. White introduced Carter McFadden; and C. J. Randolph introduced Robert D. Edwards. In his remarks upon introducing Mr. Edwards, Mr. Randolph stated his guest was the newly appointed Secretary of the Boy's Work department of the Railroad Y. M. C. A.

The memorial services were then announced by Mr. Fussell, who introduced the principal speaker, Mr. Godbey.

The following newly elected members of the club, who were present were then introduced: A. A. Hardage, Dave Cohen, and Henry Sigman.

The three new members made brief addresses, each saying they were glad to be in a live organization devoted to the interests of the cities of Albany and Decatur.

Superintendent W. W. Benson of the Decatur public schools at the request of the president "delivered the charge" to the new members, explaining what would be expected of them as members of the Morgan Kiwanis Club.

Cabinet of Frances Deserts Chamber

(Associated Press)

PARIS, Feb. 8—Premier Poincare, with all the cabinet ministers exasperated by the opposition's attacks, walked out of the chamber of deputies today. The session was immediately suspended.

Suspension of the sitting was moved in order to prevent the cabinet's departure being interrupted as meaning that the government would resign.

LOUISE LARSON IS SLAIN IN APARTMENT

Movie Actress Is Found Dead in Rooms by Her Negro Maid

DOG LEASH USED TO TIE HER HANDS

Mouth Gagged and Her Body Lashed to Bed Post by Slayers

(Associated Press)

NEW YORK, Feb. 8—Bound to the post of her bed and with her mouth gagged, Miss Louise Larson, a 24 year old motion picture actress, today was found dead in her room in a fashionable apartment on West 77th street.

The actress' hands had been spread eagled and tied to the bed post with a dog leash. Her Belgian police dog was found lashed to a chair in another room of her apartment.

The police said the murder must have occurred after 8:30 o'clock this morning as the tenant of an adjoining apartment said he had heard Miss Larson's bill ring several times at the hour.

To the girl's query, the caller replied he was an express man. The door was open, the tenant said, and the caller apparently entered. Nothing more was heard.

The body was attired only in a nightgown. A portion of the towel with which the woman's head was bound had been stuffed into her mouth and fastened to the sides of her head with adhesive tape.

The girl had been strangled to death after she had been attacked, according to the examining physician.

Miss Larson had her home at an apartment house facing the park that surrounds the American museum of natural history. One of Manhattan's high priced studio apartment districts.

The body was discovered by a negro maid who went to the apartment to prepare breakfast for the actress.

SEVERAL KILLED AS BRIDGE COLLAPSES

(Associated Press)

QUEBEC, Feb. 8—Three women and two men are missing and they are believed to have been drowned when a mile long bridge across the St. Lawrence river broke up last night as sightseers were walking on the fragile span.

Officials said early today the death list might grow as the investigation proceeds.

The missing men and women were seen floating off in the darkness on a huge slab of ice.

Members to Have Charge of Service

Because their pastor Dr. L. F. Goodwin, has been detained at home on account of illness in his family, members of the Westminster Presbyterian church will conduct the Sunday vesper services at the church for a few weeks.

On Sunday at 5 o'clock E. F. Baird will lead the meeting and next Sunday afternoon at the same hour Mrs. A. A. Hardage will have charge of the service.

Berlin Silent on Flag Incident

(Associated Press)

BERLIN, Feb. 8—The foreign office refused to discuss reports of Ambassador Wiebfeldt's possible resignation as a result of the Washington flag incident, but it seemed to be clearly the government's intention to shift the responsibility to the ambassador.

AMERICAN CRUISER SENT TO HONDURAS

Residents of La Zeiba Ask for Protection of Interests

POLITICAL ROW YET UNSETTLED

State Department Says Intervention Is Not Meant by Action

(Associated Press)

WASHINGTON, Feb. 8—The cruiser Rochester of the special service squadron now at Colon has been ordered to LaZeiba, Honduras in response to an appeal to the state department from American residents who fear that revolutionary developments will jeopardize their interests. No actual outbreak has been reported, but the prospects of an amicable adjustment of the Honduras election tangle are not good and that fighting may break out at any time.

State department officials say dispatch of the cruiser does not mean there has been a decision to intervene.

The Rochester should reach her destination on the north coast of Honduras tomorrow. Official reports from Honduras have been meagre but not encouraging.

It is still hoped the de facto government may succeed in organizing a coalition cabinet under which a new election could be held, and the political situation cleared up without resort to arms.

LaZeiba is a center of fruit exportation and there are large American investments there.

BAPTIST SERVICES TO CLOSE TONIGHT

The simultaneous services for this week in the Baptist churches of the city will close tonight with every pastor in his own pulpit. A representative of the W. M. U. will speak in each church. In the absence of a pastor Prof. J. D. Garren and Mrs. A. T. Hanson will conduct the service at Austinville.

While the inclement weather has made the crowds smaller the audiences have increased during the week and the interest has been good. In the closing service at the Decatur Baptist church, pastor C. C. Davison will deliver in part his address on "Perils to Our Civilization." This address was delivered at Howard College on Founder's Day, January 29th, and an appreciative audience heard it at the Central Church last night. A good attendance is expected. The public is invited.

Clarkson Sings on February 26

In a letter to Mrs. Vera Austell, one of her close friends here, Margaret Clarkson, of New York, stated: "Listen in for me on February 26 at 8:30 p. m. from station W. Y. Z. I want the home folks to hear, and to let me know how the song sounds to them."

Miss Clarkson was reared here and began her musical career here. Mrs. Austell stated that Miss Clarkson had written her for the song "Alabama" as written by Harry Armstrong now an attorney in Washington, but who was born at Scottsboro, he so of a newspaper man there. Miss Clarkson expects to sing "Alabama" before the Alabama Society of New York.

The Albany-Decatur concert band will rehearse tonight at 7:00 o'clock its program for the Woodrow Wilson Memorial service Sunday afternoon. All members were requested to be present in the chamber of commerce rooms, and to bring with them all music.

Band to Practice At 7:00 Tonight

The Albany-Decatur concert band will rehearse tonight at 7:00 o'clock its program for the Woodrow Wilson Memorial service Sunday afternoon. All members were requested to be present in the chamber of commerce rooms, and to bring with them all music.

NOT TO RECOMMEND ANY PARTICULAR BID

Hull Says Report From Committee Minority Is Due Saturday

INTRODUCES NEW BILL IN HOUSE

Original Hull Measure Amended Slightly By Its Author

(Associated Press)

WASHINGTON, Feb. 8—A bill providing for the lease of Muscle Shoals to a \$15,000,000, to be formed by the Tennessee Electric Power company and other power companies, was introduced today by Representative Hull of Iowa.

The bill differs in but one respect from a measure introduced earlier in the session by Mr. Hull.

The old bill provides for two companies, one to be capitalized at \$10,000,000 for the production of power, the other to be capitalized for \$5,000,000 for manufacture of fertilizer. The present bill creates one company for both.

The bill is now in any way connected with a minority report being prepared by Mr. Hull and other members of the house military committee. This report is to be made public at noon tomorrow, Mr. Hull said, and would oppose Henry Ford's offer and not recommend any particular measure.

TAX DEDUCTIONS ARE EXPLAINED

Deductions allowed taxpayers in connection with the maintenance and operation of automobiles are the subject of frequent inquiries from taxpayers in filing an income tax return. The following is for the guidance of owners and prospective owners.

Such cost, for garage bills, gasoline repairs, etc., may be deducted as a business expense when an automobile is used wholly for business purpose, or in trade, profession, or farming. When used partly for such purposes and partly for the pleasure or convenience of the taxpayer and his family, the cost may be deducted and that part attributable to business or the other pursuits mentioned deducted as a business expense.

The same rule applies with regard to the deduction for depreciation which is allowed when an automobile is used wholly in business, trade, profession or farming, and must be appropriated accordingly when used partly for such purposes and partly for pleasure. If an automobile is used almost exclusively for pleasure, a deduction for depreciation is not allowed.

The purchase price of an automobile even when used wholly in business, cannot be deducted from gross income. It is a capital expenditure, deduction of which is expressly disallowed by the revenue act. The 5 per cent tax which attaches to the sale of an automobile cannot be deducted by the purchaser, because it is a tax levied on the sale by the manufacturer, and must be returned and paid by him. The manufacturer may reimburse himself in the amount of the tax by agreement with the purchaser, in manner prescribed by treasury regulations. So far as the purchaser is concerned, the tax is a part of the cost to him of the automobile. The manufacturer may not deduct the tax in his return, unless the amount is included in his gross income. An automobile license fee is regarded as a tax, and may be deducted whether the automobile is used for business or for pleasure or convenience.

In the event of a collision between a truck and an automobile used for pleasure or convenience, the owner of the truck may claim a deduction for damages, provided the truck was being used for business at the time of the collision. No deduction is allowed the owner of the automobile, because it was not being used for business purposes. Amounts expended by owners of automobiles used for pleasure or convenience.

THE SUPER-POWER PLAN MAKES LITTLE PROVISION FOR FERTILIZERS

The arguments attempted by certain college professors in their efforts to win the Congress and the American people away from the Ford bid for Muscle Shoals are readable to say the least. These professors lay the foundation of their argument on what is termed the "Super-Power" plan. This plan in brief means that not just one river or a few rivers, but that all the waters of North America are to be harnessed and then federated, so to speak.

In a statement to the House committee which was giving a hearing to the Ford bid and the bid of the united power companies of the South, a professor of the University of North Carolina is reported to have said the following:

"He (the professor) said that it would not be possible to furnish North Carolina industries with cheap power from Muscle Shoals but for the fact that all the great power companies of the South, some nine or ten in number, have their high tension transmission lines inter-connected. This great inter-connected system, the most extensive east of the Mississippi river, makes possible a far more economical utilization of the Muscle Shoals developments than could be obtained in any other way. This advantage accrues through the diversity of demand which obtains throughout the southeast section served by this net work of some 2,000 miles of lines. Over this great area the loads are very varied, the maximum in different places occurring at different times. Moreover, on many of the larger rivers developed in these states there exist great storage reservoirs which are totally lacking on the Tennessee or on its tributaries at or above Muscle Shoals. Furthermore the conditions of stream flow over this from the Tennessee river to the Atlantic ocean are rarely the same on all parts of the area at the same time. When there is a great drought in the Piedmont section of North Carolina it often happens that there is a normal rainfall or even an excessive rainfall on the western slopes of the Blue Ridge, draining into the Tennessee. Though opposite conditions may occur."

When the professor had finished he was made to admit that the president of his university had requested him to appear against the Ford bid, adding that he was also personally interested in the super-power idea.

It is plain that the super-power idea is a good one. But the fact must not be lost sight of that Muscle Shoals power has been set aside, first of all, for the benefit of the farmers. They are expected to have fertilizers made there as a prime consideration. But as Henry Ford has made by far the best offer and the best guarantee to make fertilizer, his bid is the best one for the farmers.

If there were unlimited power at the Shoals, there would not be so much objection to large power companies being allowed to use a large share of the power, but since there is some limit even to the great possibilities of the Shoals power, it stands the farmers in hand to lease the Shoals to the man or company who promises most for their interests. The view of the military committee of the House was recently expressed as follows by a well known Washington correspondent:

"Comment was made by some members of the committee that to turn Muscle Shoals over to a number of power companies primarily for the distribution of power to the

industries of neighboring states and secondarily to make fertilizer if it were practicable to do so, would be to pervert the great national purpose conceived in Ford's offer; that is, to make cheap fertilizer for the farmers of the nation."

THE BODY OF PRESIDENT WILSON NOW IN TEMPORARY TOMB

Because throughout the centuries, should this civilization endure, the tomb of Woodrow Wilson will be a sacred shrine, it is quite probable that at some future time his bones may be placed in a stately mausoleum built especially for that purpose. The authorities in charge of the great church where Mr. Wilson's body now rests, are said to be perfectly willing for the body to rest where it now is throughout all time. The place is a sacred edifice well suited to be the tomb of the great dead. But just as tombs have been built for one or two other great Americans, it will be but fitting that at some time a great monument shall rise to Mr. Wilson's memory and that his body be removed to it.

The wish will be general that the dead President's final resting place shall be at the nation's capital, where thousands may visit it with the least inconvenience possible.

Until the passions aroused by the World war and the bitterness of political antagonisms have passed, it might be objected to by some few if at the present time such a monument should be undertaken for Mr. Wilson as has been erected to the memory of Washington and Lincoln.

The close friends of the departed President can well afford to wait for a time until decision is made as to his last resting place.

Nothing could appear more unseemly than for a controversy to arise as to Mr. Wilson's place in human history.

When the verdict of history is rendered as to the place and greatness of Mr. Wilson no monumental sepulchre need be erected for his sacred bones.

NEW POSTMASTER

The President sent to the Senate last week the name of Mr. Culver H. Hillis, of this place, for postmaster to succeed Mr. R. M. Rawls, for the past eight years postmaster, whose term expires on the 11th of this month.

Mr. Hillis was at one time assistant postmaster here before the office was made a second-class office, and later he went on the road as a railway mail clerk, where has been since. He served for a short time as assistant postmaster at New Decatur.

Mr. Hillis is a most excellent gentleman and will bring to his new position capacity and a determination to keep the service up to the high standard it has reached under the direction of the retiring postmaster, who, when his time is out, will return to his newspaper, The Courier, and devote his time and best effort to the conduct of the paper. Mr. Hillis is closely identified with Athens. He owns property here and is in every way a most deserving and excellent gentleman, and the people will find him courteous, accommodating and doing his best to render good service in this trying position, where there are always more or less "kicking," and a place that is impossible to please everybody.

We believe that Mr. Hillis will make a postmaster who will look well after the service. He knows what the duties are and he knows what men can do and with his excellent force of postal employees he will be able to render a highly-satisfactory service.

Mr. Clay Rawls, who for the past several years has been identified with the office, for the past two and a half years as assistant postmaster, has rendered to the retiring postmaster his resignation and will give his entire time and attention to his recently purchased interest in the gents' furnishing business of Kinzer and Rawls, having bought the May interest in this growing business. He has been very popular with the patrons of the office and has rendered excellent service. The incoming postmaster regretted very much his leaving and asked him to continue in the same capacity, but the future of the new business in which he is embarking appealed more to him than did the government service and for this reason alone he tendered his resignation and will go out of the service just as soon as the incoming postmaster can supply his place with a competent man.—Alabama Courier.

A person who does not evade others seldom has his personal rights invaded.

Dallas Judge Not to Pay for Election

(Associated Press)
SELMMA, Ala., Feb. 8.—Judge Watkins M. Vaughn has given notice that acting under the ruling of Attorney General Harwell G. Davis, he cannot incur for Dallas county the expense of holding the democratic primary March 11.

Judge Vaughn said his interpretation of the law given by the Attorney General left him no option. The election, it is understood, will be held as scheduled as the bill of costs will be guaranteed by the state democratic executive committee.

WAXING PATRONAGE CLOSES COLOGNE'S HOME BREWERIES

COLOGNE.—The little home brew bee shops of Cologne, one of the town's well known institutions for some 200 years past, have about disappeared.

They were popular because many Germans used to believe they could, and did, make better beer than the big breweries. But this point of view has been changing for years; customers have been deserting the small places, and the last of them has given over its efforts to hold on to the past and, deserting its cellar vats, has become converted into a regular beer hall, dispensing the standard brands.

The Alligator Gar.
The great gar (Litholopsis or Lepidosteus tristirochus) of the rivers of southern United States, Cuba, Mexico, and Central America is known as the alligator gar. It is greenish in color and sometimes reaches a length of 20 feet. Its flesh is worthless as food; its scaly armor often turns a spear or even shot. While it is able to breathe air to a certain extent, yet it soon dies in foul water.

Woman Surprises Her Friends

"After a spell of typhoid fever 7 years ago I began to suffer from indigestion and gas in my stomach and colic attacks. This gradually became so bad that my doctor advised an operation for gall stones. A friend advised me to try Mayr's Wonderful Remedy, which I did with splendid results. My friends were astonished at my rapid improvement. I have no more bloating and can eat anything I wish." It removes the catarrhal mucous from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. By druggists everywhere.—adv.

LOSE WILL PURCHASE LARGE SIZE PAINTINGS

LONDON.—Large canvases painted by old masters to hang upon the apocryphal walls of the rich man's mansion are hard to sell in these days of apartments and small houses. Bond street dealers say the demand is almost entirely for small pictures, so that prices frequently are in inverse ratio to size.

Post-war social changes are held responsible for the poor market accorded huge masterpieces with their many yards of canvas. Scores of country mansions have been closed or sold to the newly rich, who have been too occupied with money making to care about art, and most town-houses are already overfilled with furniture and ornaments.

FOUR GENERATIONS

Texas Lady Says Her Family Has Been Taking Thedford's Black-Draught, When Needed, for Many Years.

Alto, Texas.—"We inherited the use of Black-Draught in our family," says Mrs. Mary Shuptrine, who lives near here on R. F. D. 2. "My grandmother was an old woman when she died about ten years ago, and she had been using it literally ever since I can remember. She gave it to her children and grandchildren for biliousness and stomach complaints, so when I went to housekeeping we just naturally used it, too."

"I give it to my children for a purgative whenever they need one, and we are never without it. Made into tea, it surely is fine. It's the best home remedy for headache and constipation I know of."

"During over 80 years of its continued popularity, Black-Draught has become the standard liver medicine in many thousands of homes, where it has been found of great benefit in the treatment of constipation, biliousness, indigestion and other common liver, stomach and bowel complaints. Ten million packages of Black-Draught are now sold a year, as more and more people are learning of the value of this well-known remedy."

Insist on Thedford's, the only genuine Black-Draught powdered liver medicine. At all dealers. NC-154

Tax Reductions Are Explained

(Continued From Page One)

venience in repairing damages there to caused by negligent operation do not constitute deductible losses.

Taxpayers are advised not to delay in the filing of their returns. To do so results in confusion and congestion during the closing days of the filing period, which ends at midnight of March 15, 1924.

Life in China.
In nearly all Chinese cities a large percentage of the inhabitants live a sort of hand-to-mouth fashion, buying food from restaurants. Hot water is sold from stands by people who make a business of providing it. It seems to be the primary cause of the mode of living.

Sucking Fishes.
The sucking fishes of the deep sea have their back fin modified into powerful sucker by which they fasten themselves to the bottom ships or to big sea animals and so the problem of transportation.

WALLACE-BROCK Soliciting Agency

These two boys have formed a partnership soliciting agency with headquarters in the office of L. B. Wyatt and Son, on Bank Street, soliciting prospects to go to the Rio Grande Valley, Texas, the greatest citrus fruit country in the world. The climate equals any in the United States and the soil is superior, being especially adapted to the raising of citrus fruits. They are the sole agents for the Doss-Gates Realty Company, of Weslaco, Texas, right in the heart of the valley. Mr. Doss is a nephew of C. C. Doss, of Hartselle, and a native of Lawrence county. Anyone contemplating going out at an early date will do well to see these parties at once as they have some very attractive inducements to offer. They have a party leaving Saturday February 9th. Mr. Wallace is in the office at all times.

Are You Lucky?

Guess number of pennies in our window, win this beautiful range

RED STAR Free!

This ad shows the beautiful six-burner Range as displayed in our window, which we will give absolutely free to the person guessing nearest the number of pennies shown in our window.

Every housewife entitled to one guess on these pennies.

Then for each dollar's purchase in merchandise or each dollar paid on account entitles you to an additional guess. Example:

\$50.00 PURCHASE—50 GUESSES
\$50.00 PAID ON ACCOUNT—50 GUESSES

One Prize only. Should two or more people guess the exact number, such persons would have equal share in the prize. Should the exact number not be guessed then the prize will be awarded the person guessing nearest the exact number. Pennies will be counted at 2:00 P. M. on Saturday, March 1st, 1924, by three responsible citizens of Albany. To win this prize you must be present when count is made.

Have you seen this handsome Range? This Beautiful Oil Stove offers the woman who uses oil for fuel, the most modern type of cooking service. Not even the most elaborate gas range can offer more practical features.

This latest Red Star is far ahead in many ways. Its clean, unbroken surfaces with stream lines, rounded corners and edges; the trimness of the design; the absence of ugly bolt heads and other projections; the sanitary white porcelain and black enamel finish, are all marks of the highest type of modern stove construction.

And behind this physical perfection is the famous Red Star Burner which burns common kerosene, yet cooks with a clean, hot, economical GAS HEAT. This patented burner HAS NO WICKS or wick substitutes. Gives years of service without replacing. There are types and sizes of Red Star Oil Stoves for every home and a price for every purse. We invite you to visit our stove department for a demonstration.

PHI MU MEET.

The Phi Mu Literary Society of the Central High school met on Thursday afternoon at 2:20 for election of officers for the second semester.

The outgoing officers were: president Marvin Freidkin; vice president, Miss Lorena Ashford; secretary, Miss Ruby Britnell; treasurer, Sam Barnes; recorder, Irving Mitchell; critic, Miss Louise Nelson. Second semester officers elected on Thursday included: president, Miss Alma Hartung; vice president, Irving Mitchell; secretary, Miss Lorena Ashford; treasurer, Miss Helen Nebright; reporter, Marvin Freidkin; critic, Miss Daphney Nelson. A program committee has been appointed as follows: Irving Mitchell, chairman; Miss Lorena Ashford, Marvin Freidkin and Sam Barnes.

MRS. PETTEY ENTERTAINS.

A lovely party was given on Wednesday afternoon by Mrs. Thomas Pettey at her attractive home on Oak and Cain streets.

Bridge was played during the afternoon hours after which dainty refreshments were served.

Mrs. Russell Greene was the lucky contestant at the game and received a vanity and Mrs. W. N. Cowden got the consolation gift.

The guest list follows: Mrs. Russell Greene, Mrs. W. N. Cowden, Mrs. Rufus Pearson, Mrs. William Moseley, Miss Elizabeth Houston, Mrs. Phillip Humphrey, Mrs. Pat Brock and Miss Lucille Bailey.

MRS. NORRIS SHARES HONORS WITH MISS LUBAR.

Mrs. George Freidkin and her daughter, Miss Dorothy, jointly entertained at bridge on Thursday afternoon from 2:30 p. m. to 5:30 p. m. for Mrs. Freidkin's sister, Miss Florence Lubar, of Washington who is their house guest. Mrs. Morris, a recent bride shared honors with Miss Lubar.

Mrs. Freidkin received her guests in a lovely black chenille gown and Miss Freidkin wore a creation of ashes of roses with grey accessories. Miss Lubar's gown was green, heavily beaded while Mrs. Morris was attractive in a sunset gold dress.

Miss Hilda Polytinsky made highest score and received the first prize. Mrs. Morris was awarded the consolation prize and Miss Lubar received a dainty memento.

A delicious chicken salad course was enjoyed after the bridge game.

The books, five hundred in number received this week at the Decatur High school were valued at \$2,000 and more volumes are being received daily.

Much of the success of the shower is due to the untiring efforts of Mrs. W. C. Bailey, chairman of the library committee, under whose direction the shower was given.

MRS. MASON, HONOR GUEST.

Mrs. W. H. Montgomery was a charming hostess of Thursday with Mrs. T. G. Mason, recently of Athens, Ga., but who has joined Mr. Mason here, as her guest of honor at the lively bridge party she gave at the Lyons Hotel.

The prize for highest score was awarded to Mrs. C. B. Elliott and it was three dainty handmade handkerchiefs. Mrs. Jeffries received the low score trophy, a telephone pad. At each of the four tables, the cards were cut for a souvenir, the lucky ones receiving these being Mrs. H. H. Hitt, Mrs. J. R. Daniell, Mrs. J. H. Calvin and Mrs. J. Y. Hamil. A gift was presented the honoree.

Those included in Mrs. Montgomery's hospitality were Mrs. D. E. Hatcher, Mrs. B. P. Wallace, Mrs. Harry Carpenter, Mrs. Clyde Hendrix, Mrs. W. N. Cowden, Mrs. Eugene Morrow, Mrs. W. K. McNeill, Mrs. R. G. Cortner, Mrs. W. Thompson, Mrs. H. H. Hitt, Mrs. J. Y. Hamil, Mrs. J. R. Daniell, Mrs. J. H. Calvin, Mrs. C. B. Elliott, Mrs. Sara Jeffries and Mrs. Mason.

Elaborate refreshments were served at the tables following the game.

W. L. Humphrey continues ill at his room in Garnett building on Moulton street.

THURSDAY BRIDGE CLUB.

The Thursday Bridge Club members and Mrs. J. W. Thornton were guests of Mrs. R. M. Buchanan on Thursday afternoon at her lovely home on Sherman street.

Mrs. Robert Gray made top score at bridge, the game played during the afternoon. Later a tempting salad course was served.

Mrs. Arthur Hames and son, will return to Evansville, Ind., on Saturday night after having attended the funeral of the late Mrs. Webster.

Mrs. Claud Gallagher is in Birmingham today where she went to have her eyes treated by Dr. Riggsbee.

Miss Louise Nance is spending the weekend with her aunt, Mrs. J. W. Pipkin.

Mr. and Mrs. Herbert Eggers have as their guests his father and his sister, Mr. Eggers and Miss Eva Ruth Eggers, of Louisville, Ky.

Mrs. Walter Mayes and daughter, Myrtle, Agnes and Mildred of Evansville, Ind., are here to attend the funeral of the late Mrs. Nettie McGar Webster.

Mrs. Robert Steadman and daughter, Mary Kate, who arrived on Monday to be the guests of her sister, Mrs. Walter Ezell, will leave in a few days for their homes in Evansville, Ind.

Mrs. W. H. Simpson left today for points in Florida. Mrs. Simpson is making the trip overland and will be in Miami for some days thence to Palm Beach for the winter months.

Miss Gertrude Johnson of Birmingham, who has been confined to the home of her parents, Mr. and Mrs. S. D. Johnson, for several days, is reported somewhat improved this morning.

Casing-Head Gas.

Casing-head gas has been made since 1904. An oil which has the faculty of absorbing gasoline from natural gas is sprayed downward through a tall pipe or tower, while the natural gas coming out at the top is practically without gasoline, while the oil at the bottom has absorbed it. Then, by a simple process of distillation, the gasoline is derived from the oil, and the oil goes through the same operation again. A good-sized plant can treat 80,000,000 cubic feet of natural gas this way, and obtain at least 8,000 gallons of gasoline a day.

Spiders Have Calling Organ.

Experiments seem to prove that spiders can call to one another. Several spiders have on the underside of their abdomens a round depression containing small, hardened projections, which is suggested to be the calling organ.

Contradiction. A spirit of contradiction is so pedantic and hateful that a man should watch against every instance of it.

Go to Hardage's First.—Adv.

Sol West of Somerville was a visitor in the Twin Cities today.

AMUSEMENTS

What the Press Agents Say

After an amnybing but in some respects a laughable, series of adventures with detectives who picked him out as their "subject," Douglas MacLean is now able to walk the streets of Los Angeles without being shadowed as a possible "film pirate."

Recently a print of "The Sunshine Trail" the sparkling Ince comedy-drama which comes to the Princess Friday and Saturday was reported missing from the Thomas H. Ince studio in Culver City, Cal. It was suspected that thieves had shipped the film to the Far East, where photoplay "pirates" have been doing a thriving business in stolen American films.

Private detectives were put to work on the case and the description of a frequent visitor to the Ince studios was given to a detective agency. By a strange coincidence both the snap-shot of the suspected person and his general description tallied closely with that of Douglas MacLean, the Thomas H. Ince star. To make the coincidence more laughable, the picture which the suspected party was known to have

Not Without Beer.

A Dutch concert is a social entertainment in which every man sings his own song at the same time that his neighbor is singing his, or in which each person present sings in turn a verse of any song he pleases, some well known chorus being used as a burden after each verse.

stolen was "The Sunshine Trail" in which MacLean had just finished playing the leading role.

Thereafter, for three weeks, MacLean was closely shadowed day and night by private detectives.

Mobile Woman Lost All Desire For Food

The wonderful reconstructive and health giving powers of the Tanlac treatment are again very forcefully demonstrated. This time in the case of Mrs. Annie Rose, of 912 South Broad street, Mobile. Mrs. Rose says:

"For years I had been in a run-down condition, very thin and pale, and kept a feeling worse and worse all the time. I had no appetite, many things I did eat hurt me and I was so nervous and weak I did not trust myself

out on the streets alone for fear of falling.

"When I began taking Tanlac I weighed less than a hundred pounds. The first bottle helped me so much that I kept on taking it until my health was restored and I went up to my present weight, one hundred and forty pounds, and since then I have felt and looked like a different person."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Take Tanlac Vegetable Pills.—Adv.

Why do you eat Bran?

TO FIGHT CONSTIPATION—the most dangerous condition your system can become chained to—to get free from biliary illness, dull headaches, nausea—etc., etc.!!!

Rid yourself of this dangerous condition—or start "slipping"—and become a prey to any one of the most dreaded human ailments which have their beginning with constipation and toxic poisoning!

Fight constipation as you would fight fire! Fight it with bran—Kellogg's Bran—BECAUSE IT IS ALL BRAN! Don't temporize! Don't waste time and health by going half-way! You need ALL BRAN; you need the bulk, the "roughage" of ALL BRAN, because it sweeps, cleanses and purifies!

REALIZE THIS—foods with a part bran content can only relieve constipation in proportion to the amount of bran they contain! If they are 25 or 50 per cent bran—you may get 25 or 50 per cent relief!

REMEMBER THIS—Kellogg's Bran is ALL BRAN and is guaranteed to give you positive and permanent relief if you will eat two tablespoonfuls daily, or as much with each meal in chronic cases!

Don't delay; don't fuss with half-way measures! You have too much at stake! All grocers sell—

Kellogg's *Look for this signature W. A. Kellogg*

Florex

A trade-name that will serve you as a guide in buying citrus fruits, assuring honest value.

Truly good, juicy, sweet and appetizing oranges and grapefruit, trade-marked Florex, are produced by members of the cooperative Florida Citrus Exchange.

Florida Oranges and Grapefruit

marked Florex are packed to meet the requirements of southern trade and to supply the good eating quality demanded by the people of the South.

Call for Florex oranges and grapefruit. Your dealer has them or can get a supply from some near-by jobber. Look for this mark on boxes and wrappers—

Florex

Fall's Ranch Manager Under Surveillance.

It is reported in Washington that J. T. Johnson, manager of the Three Rivers, N. M., ranch of ex-Secretary of the Interior Albert B. Fall, is under constant surveillance. He had been summoned to Washington to be questioned about the statement of Archie Roosevelt, son of the late President, that he received checks for \$50,000 from a representative of Harry F. Sinclair, oil magnate, and also about Fall's expenditures on his ranch after a long period of apparent penury.

MALAY TRIBE MAY UPHOLD DARWIN, DECLARES AUSTRIAN

HEIDELBERG—All races of the world have shown more or less predilection toward civilization, excepting a tribe of Malays in the wilds of one of the Celebes islands in the Dutch West Indies, asserts Professor Baseler, an anthropologist of Vienna, writing in a German medical journal. These natives, living in unexplored sections of the islands, are gradually slipping backward, says Prof. Baseler, and if their decline continues it may go to prove eventually that Darwin, after all, was right.

These natives are all left handed, chew their food with a grinding motion of the jaw, like an ape, have long arms live in trees and use their feet as well as their hands in nearly everything they attempt to do. It was at the beginning of the bronze age, avers the professor, that man began to use his right hand, a sure sign of civilization, but the natives of the Celebes are much further removed today from any social development than they were in the stone age when man began to open his eyes to all about him.

Athens News

Calver M. Hillis of Athens, former clerk in the post office here and also at one time in the post office in Albany, more recently of the postal railway service, was appointed as postmaster of Athens by President Coolidge last week. Mr. Hillis is well known in Athens and enjoys a large friendship that rejoices at this appointment of his. He has lived here for many years and being a very popular man in the community will make a good postmaster. He is to take charge of the post office on Tuesday, February 12.

Former postmaster, R. M. Rawls, will return to the work of editor of the Athens Courier, at the expiration of his term of office as postmaster on February 11th. Mr. Rawls has been in this position for eight years and it will take some time for the public to get accustomed to his absence about the post office.

Mr. Clay Rawls, at present assistant postmaster, has resigned his place to go into business of gentleman's furnishing in the firm of Rawls and Kenner, which he has recently purchased half interest from Gil T. Mays of Pulaski.

Plans for the memorial service to ex-President Woodrow Wilson have been completed and announced. The services will be held for all the congregations of the community in the Presbyterian church at seven o'clock next Sunday evening. Dr. R. T. Tyler will preside. Rev. R. T. Hask will lead the prayer. The great man will be presented as an educator by Dr. B. B. Glasgow, president of Athens College. Dr. J. O. Williams of the First Baptist church, will speak of Woodrow Wilson as a statesman. Rev. T. B. Clark pastor of the Christian church, will speak of him as a Christian. The music for the occasion will be hymns loved by the late President. They will be presented by the members of the various choirs of the community.

The parents school improvement of Athens has about completed plans for serving hot lunches for the school children at the public high school. Mrs. Lizzie Bell has been chosen to take the lead in the work. The equipment is being purchased and the large auditorium of the old Green building, which is the main building for the public school now, will be furnished for that purpose. The business men of Athens are placing a large range in the building for the use of the cafe.

teria. It is taken as a decided advance in the work of the public school system of Athens.

Dr. C. A. Steele, of Decatur First Methodist church presented the first of a series of lectures to be given at Athens college last night. These lectures are in interest of the college library. They will be given on Thursday evening of each week. His subject for this week was "Home Life in Dixie During the War." Much interest is being manifested in this series of lectures by this famous lecturer and preacher.

BETTER THAN WHISKEY FOR COLDS AND FLU

Delightful Elixir, Called Aspirinal, Medicated With Latest Scientific Remedies That Are Endorsed by Medical Authorities to Cut Short a Cold or Cough Due to Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter if You Don't Feel Relief Coming in Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the drug trade is Aspirinal, the two-minute cold and cough reliever, authoritatively guaranteed by the laboratories; tested, approved and most enthusiastically endorsed by the highest authorities, and

proclaimed by the people as ten times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are supplied with the wonderful elixir, so all you have to do to get relief from that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal and tell him to serve you two teaspoonsful. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel the distressing symptoms of your cold fading away like a dream, within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and children, for Aspirinal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for children as well as adults. Quickest relief for catarrhal croup and children's choking up at night. Advt.

New York Letter

by Lucy Jeanne Price

NEW YORK, Feb. 8.—A lot of people are coming down to earth with a jolt on the matter of this "awful" younger generation. Somehow the stories that got around about the human race generally between the ages of sixteen and twenty-six indicated that cigarettes, hip flasks and "petting parties" were cherished symbols of their lives. Patents were worried, grandparents well nigh paralyzed at conditions as they were reported. Sometimes I think it was a little joke started by a general understanding among the novelists and lecturers. One New York woman is inclined to agree with me. She gave a luncheon in honor of her niece's debut, and having no young people of her own, she knew them only by reputation. She approached several of the prospective guests quietly and asked what she ought to serve to drink. "What would you all really like best?" she insisted. And without exception and quite honestly they told her milk.

Being the head of a coffee importing house sounds like a good-sized job for almost anyone. And being the only woman coffee importer in the country, which probably means in the world, sounds even bigger to those who are not yet accustomed to the thought of women competing in big business with men. But Alice Foote MacDougall, who answers to both of those descriptions, found a few leisure hours, or saw a way to evolve leisure hours out of her long days, and so has established two coffee houses uptown, of which she is also the active manager. Mrs. MacDougall is an inspiring example for all womankind which has any business ambitions. Left at forty-three with the necessity of supporting herself and three children, totally inexperienced in business and with just \$38 in her pocketbook, she started in the coffee business. Today she is, well, just where I have told you, and her name is heard with respect in every business and banking circle in this large city. Moreover she has managed to keep unruffled, unharried, feminine and charming, which makes the achievement considerably greater.

How many meals a day? Three was such a well-established number in this country that we don't realize even now how far we have gotten from it. Whether this city is typical, I am not sure, but I do know that here, five or six would be the honest answer of most people. Nearly everyone eats a light breakfast. Too much.

for one thing in the morning to do anything else. So along about eleven they get hungry. Drop in at the drug stores that have established lunch counters and count the men and girls getting a malted milk or something of the sort. The same thing in the afternoon. From three to five these places are nearly as full as at noon. And a "snack" after the movies in the evening or a visit to the ice box at the end of an evening at home. Eating "little and often" has unconsciously established itself as the New York custom.

One of our Manhattan legislators has risen in revolt in behalf of his whole sex. In introducing a bill to give women separate barber shops from men so that bobbed heads will not intrude into this one-time male sanctuary, Representative Joseph Steinberg says: "Why, as compared with the privacy a man now has, Irwin Cobb's goldfish led a cloistered existence. It has gotten so that the only way a man can escape the sound of a feminine voice is to go into a telephone booth and try to get a signal."

I had supposed that "while you wait" photographers were fading into oblivion, that people didn't have their pictures taken unless they went to an "art" studio and made a real undertaking of it for themselves and the picture-taker. But I was all wrong. The "while you wait" people are experiencing a big business boom, here at least, and it is estimated that 2,000,000 people a year are having their pictures snapped by those local speed-artists. The streets all about the ferry and railroad terminals of the city are crowded with them, and of course the government's passport demands have much to do with it.

Berlin May Burn Famous Oaks

POTSDAM.—The royal oaks of Potsdam, which fringe various avenues often travelled in the past by German rulers and their families, are threatened with destruction. The authorities say the trees have outlived their usefulness, that many of them are diseased, and that the municipality would realize quite a sum if they were turned into fire wood.

Members of former royal families who still make their home in the Potsdam palaces have joined with citizens in protesting against this plan, and assert that all the trees should be spared.

No Copyright in Tombstones

LONDON.—There is no copyright for tombstone designs in England, and Charles Roy Swinstead lost his claim against a firm of sculptors for infringement of a tombstone design which he erected in a cemetery.

The design was of peculiar style, and soon after the erection of the tombstone another appeared almost like it. The sculptors said in court there was nothing about Swinstead's stone to indicate that it had been copyrighted and the judge upheld them.

NOTICE!

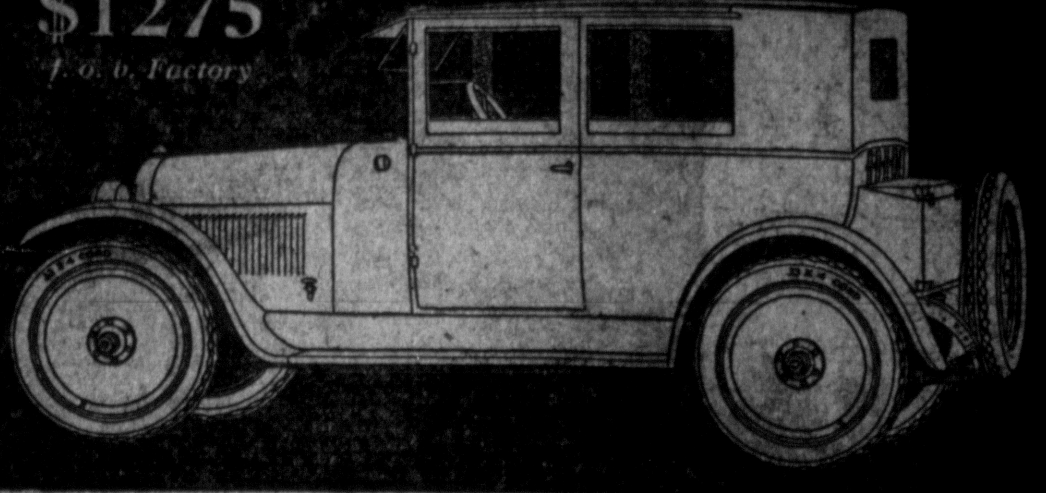

On and after February 4, 1924, we will collect charges for moving household goods before goods are unloaded. This work will be strictly cash to everybody.
